Summary

Aspiring Full-Stack Developer with proficiency in the MERN stack (MongoDB, Express.js, React.js, Node.js), JavaScript, and TypeScript. Focused on building secure, scalable web applications with REST APIs, backed by solid DSA skills.

Education

- **B.Tech, Computer Science and Engineering**, Sri Venkateswara College of Engineering *2023 - 2027*
  Current CGPA: **9.1/10**
- **Intermediate (MPC)**, Sai Parameswara Junior College *2021 - 2023* • Marks: **910/1000 (91%)**
- **SSC**, ZPHS Veparala *2021* • Marks: **547/600 (91.2%)**

Skills

- **Programming Languages**: JavaScript, TypeScript, Python
- **Frontend**: HTML, CSS, React.js, Tailwind CSS, Responsive Design
- **Backend**: Node.js, Express.js, REST APIs, JWT Authentication, bcrypt
- **Database**: MongoDB (Mongoose), SQL
- **Tools and Deployment**: Git, GitHub, Postman, VS Code, Render, Vercel (Serverless)
- **Computer Science**: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Projects

MyJobTracker (Job Application Tracker)
Tech Stack: React.js, Node.js, Express.js, MongoDB, Mongoose, JWT, Tailwind CSS

- Engineered 20 RESTful Express.js endpoints with Zod validation for auth, job-application CRUD (company, role, job URL, deadline, interview date, recruiter contact, notes), CSV export, calendar events, and saved views.
- Implemented search, filtering, sorting, and pagination on compound indexes, returning a 10-item page from a 10,000-record seeded dataset in 94 ms median (20 ms filtered); secured with JWT in HttpOnly cookies, bcrypt, and CSRF protection.
- Shipped a React.js analytics dashboard using MongoDB aggregation and a drag-and-drop Kanban board across 7 hiring statuses; deployed on Render.

Shortify (URL Shortener + QR Code Generator)
Tech Stack: React.js, Node.js, Express.js, MongoDB, Mongoose, JWT, Tailwind CSS

- Developed an Express.js REST API generating cryptographically secure 7-character short codes and custom aliases, serving HTTP 302 redirects with click tracking in 7 ms median server-side and 404/410 pages for invalid links.
- Designed Mongoose schemas for users, links, click events, and QR codes, with an aggregation pipeline for click analytics that excludes bots and repeat clicks.
- Secured the app with JWT auth, bcrypt, and per-IP rate limiting (120 redirects/min, 20 link creations/min, 10 failed logins/15 min), plus a React.js UI for PNG QR export; deployed on Vercel.

Experience

Full Stack Developer Intern – MERN Stack *Jun 2026 - Aug 2026*
SmartBridge Educational Services Pvt. Ltd. (Virtual)

- Built **BookStore** (book-store-lz4p.onrender.com), a full-stack MERN book store application deployed on Render.
- Completed a 120-hour virtual program in MongoDB, Express.js, React.js, and Node.js with the Andhra Pradesh State Council of Higher Education (Certificate ID: VIP-FSD-2026-1495).

Achievements

- Secured **1st Prize** among 5 teams in the App Development Project category at Spark Tech Event, SVCE, for a Lost and Found app that helps return items lost on the college campus to their owners.
- Solved **200+** Data Structures and Algorithms problems on LeetCode and GeeksforGeeks in Python.

Additional Information

- **Coding Profiles**: LeetCode: leetcode.com/u/yuvakiran15 | GfG: geeksforgeeks.org/profile/yuvakxcjh
- **Languages**: Telugu, English, Hindi
